CHARITABLE TRUSTS UNIT

Section 1: ORGANIZATIONAL INFORMATION

Organization Name KENDAL AT HANOVER

Street Address 80 LYME ROAD

City HANOVER Cou

County 05 - Grafton

State NH Zip Code -37551218

Federal ID# 20519490

State Registration # 5156

Website Address: WWW.KAH.KENDAL.ORG

Is the organization's community benefit plan on the organization's website? Yes

Has the organization filed its Community Benefits Plan Initial Filing Information form? Yes

IF NO, please complete and attach the Initial Filing Information Form.

IF YES, has any of the initial filing information changed since the date of submission? Yes IF YES, please attach the updated information.

Chief Executive:

Rebecca A. Smith

bedger@kah.kendal.org

Is this report being filed on behalf of more than one health care charitable trust? No

IF YES, please complete a copy of this page for each individual organization included in this filing.

Section 2: MISSION & COMMUNITY SERVED

Mission Statement: Together, transforming the experience of aging. Has the Mission Statement been reaffirmed in the past year (RSA 7:32e-I)? Yes

Please describe the community served by the health care charitable trust. "Community" may be defined as a geographic service area and/or a population segment.

Service Area (Identify Towns or Region describing the trust's primary service area): Inner community/population: Kendal at Hanover serves approximately 406 residents who have "life care" contracts. Based upon the origin of residents currently residing at Kendal at Hanover, the primary market area can be defined as the Upper Valley Lake Sunapee Region, an area that spans the state line of New Hampshire and Vermont, and is situated along the Connecticut River. Approximately 40% of the resident population previously lived within a twenty-mile radius of our community. Other areas of New Hampshire and Vermont are viewed as a secondary market area because an additional 30% of the resident population originated from these locations. Of the remaining residents, approximately 12% came from New York State, 7% from Massachusetts, 5% from Connecticut, 3% from Maine, and 3% from Pennsylvania.

The Agreement provides a high quality health care program that offers a continuum of care, which fosters wellness and treats each resident with dignity, regardless of age or condition. Our retirement community is designed to be a place where people "live" rather than a place where people are "taken care of." Kendal at Hanover encourages residents to move in early in their retirement years to make the most of new opportunities and new relationships. Applicants are sought whose presence will make a positive contribution to the Kendal community and will foster an atmosphere of mutual respect, caring and trust. Kendal at Hanover's goal is to be inclusive, welcoming and encouraging people of all backgrounds who will both gain from and contribute to the community they choose to live in.

The Financial design of our community serves certain social objectives. These objectives arise from the commitment to egalitarian principles and Quaker values as well as from our status as a not-for-profit charitable organization. An obligation explicitly stated in our core commitments is "to make our services more effective, affordable, and efficient."

A basic value permeating the entire atmosphere of our community is our belief in the dignity, worth, and equal value of each individual, regardless of age, condition, or economic status.

The financial design of our continuing care retirement community serves our social objectives in two ways. First, some residents are given direct fee subsidies. Their own funds are supplemented by assistance funds that have been set aside or contributed for this purpose. Current residents who become unable to pay the full monthly fees, due to unanticipated reverses or inflation, may apply to the assistance funds for help. New residents who cannot afford the full fees may be admitted with assistance as well. Through Fiscal Year 2007 (April 1, 2006 - March 1, 2007), Kendal at Hanover has never subsidized an applicant on the entrance fee on

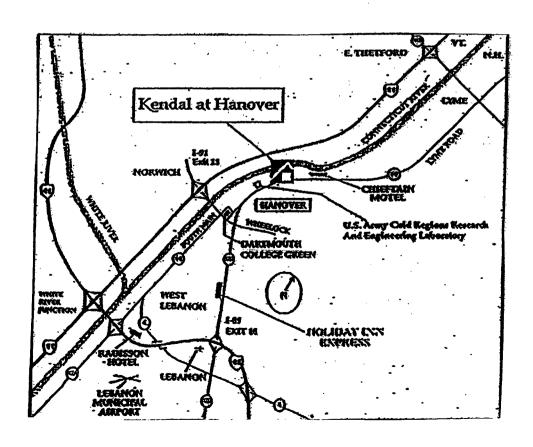

entry to the community. (In April 2007, Kendal at Hanover subsidized its first ever applicant on the entrance fee on entry to the community.)

Secondly, subsidies of several kinds are deliberately built into our pricing structures. Kendal at Hanover employs a comprehensive fee structure that socializes costs in such a way that people of lesser means are able to join our community. Through the comprehensive fee structure, all residents are provided financial security, particularly with regard to the potentially catastrophic costs of long-term nursing care. Since the costs of long-term care are shared among the residents as a group, those who are well help subsidize those who need health care. In Kendal at Hanover's fully insured contracts, the basic fees cover lifetime health care at the same monthly fees as living independently in the apartments.

In addition to health care, virtually all other basic services are provided through the monthly fee. Kendal at Hanover avoids applying extra charges for individual services or additional options whenever possible, providing the same level and quality of services to all residents. In this way, Kendal at Hanover eliminates economic distinctions among residents and preserves the egalitarian nature of our community.

Service Population (Describe demographic or other characteristics if the trust primarily serves a population other than the general population):

Kendal at Hanover has now reached financial strength and maturity as a Continuing Care Retirement Community (CCRC). In addition, the community has begun the process of again evaluating its role for the wider community. Kendal at Hanover continues to be a non-profit and leading institution in the Upper Valley.

In defining the Upper Valley geographically, Kendal at Hanover is presently focusing on the outer community/population as a thirty-mile radius. It includes the town of Lyme, New Hampshire to the north; the town of Hanover, where we reside; Lebanon, New Hampshire and White River Junction, Vermont to the south; Enfield and Canaan, New Hampshire to the east; and Norwich, Vermont to the west.

The geographical map illustrated above depicts the perceived outer community/population that Kendal at Hanover is presently focusing on as our organization analyzes and researches ways of serving the wider community general Population

Section 3: COMMUNITY NEEDS ASSESSMENT

In what year was the last community needs assessment conducted to assist in determining the activities to be included in the community benefit plan?

2009 (Please attach a copy of the needs assessment if completed in the past year)

Was the assessment conducted in conjunction with other health care charitable trusts in your community? Yes

Based on the needs assessment and community engagement process, what are the priority needs and health concerns of your community?

	NEED (Please enter code # from
	attached list of community needs)
1	101
2	300
3	372
4	501
5	507
6	600
7	601
8.	603
9	609

What other important health care needs or community characteristics were considered in the development of the current community benefits plan (e.g. essential needs or services not specifically identified in the community needs assessment)?

	NEED (Please enter code # from attached list of community needs)

Section 4: COMMUNITY BENEFIT ACTIVITIES

Identify the categories of Community Benefit activities provided in the preceding year and planned for the upcoming year (note: some categories may be blank). For each area where your organization has activities, report the past and/or projected unreimbursed costs for *all* community benefit activities in that category. For each category, also indicate the *primary* community needs that are addressed by these activities by referring to the applicable number or letter from the lists on the previous page (i.e. the listed needs may relate to only a subset of the total reported costs in some categories).

A. Community Health Services		mmi Nee idres		Unreimbursed Costs (preceding year)	Unreimbursed Costs (projected)
Community Health Education	5	0	1	\$637.00	\$1,000.00
Community-based Clinical Services					
Health Care Support Services					
Other:					

B. Health Professions Education	Community Need Addressed	Unreimbursed Costs (preceding year)	Unreimbursed Costs (projected)
Provision of Clinical Settings for Undergraduate Training			
Intern/Residency Education			
Scholarships/Funding for Health Professions Ed.	5 0 7	\$16,000.00	\$20,000.00
